University of Alberta's Students' Union Building (SUB) gets a breath of fresh air with a new atrium, patio and expanded study and social spaces. Two floors of the building are now interconnected through the addition of a two-storey glazed atrium. Usable space is expanded, and the building better reflects the Students' Union's welcoming and inclusive values. Lounge, office, and retail spaces are sprinkled throughout, capturing the vibrant spirit of students enjoying their learning. The renovation allows SUB to evolve and better service the student population in the future.
